

Flexible Post

Model: DH-FP-2

- Most Durable Post Available, made from PU.
- High Impact Resistance and can be impacted both ways and returns to vertical every time after impact.
- Has a longer life than plastic or fiber-glass composite.
- Good character of reflectivity based on the unique reflective sheet imported from Reflexive and the sheet with glue on the back is hard to desquamate from the body.
- Little Maintenance and easy installation.
- Heat Resistant +80°C, Cold Resistant -60°C
