Water Compactly: 60kg/ 132.3lbs

- Made from imported polythene and color material which guarantee the bucket not to fade or discolor and be durable.
- It is proved that the bucket full of water is fairly flexible to absorb the impact effectively and so decrease the traffic accident.
- A lot of buckets are used together to enhance the intensity against impactation .
- Red color and large volume available show the driving way clearly.
- Easy and quick installation not in help of machine can save more cost.
- Work just putting on the road to save time and not to damage the road.
- Be able to bend optionally accord with the bend of the road to contribute the maximum effect.
- Can be used with warning light or other affiliated equipment, such as advertising plate and indication plate.
- Large range for use: can be used as part of construction project, rail for separation.
- Suitable for any road, road turnoff, gas station and so on.
